Dear Jane and Ray,

Thank you for copying me on your letter dated December 19, 2012, addressed to the Premier of Ontario.

The issue of reducing child poverty in Ontario is in everyone's interest. The government of Ontario will continue to champion the reduction of child poverty in the province and work to address the related issues of economic security, social policy that supports families, and a secure safety net for families.

Thank you once again for contacting me. I look forward to continue working with you in the future, and wish you and your organization continued success going forward.

All the best,

Kathleen Wynne MPP
