Fern Dominelli
Chief Administrative Officer
Manitoulin-Sudbury District Services Board

Re: Accessibility for the Seniors Building in Noëlville

Mr. Dominelli,

The Municipality of French River had conducted an inspection at the apartment complex on St. Christophe St. for the installation of a chair lift to help seniors access the top floor of the building. Both the Fire Chief and the Chief Building Official have endorsed the addition of a chair lift for the complex would be possible for installation and would give access to those with accessibility needs to rent apartments on the top floor.

The Municipality would like to request that based on the information found from the inspections that the Manitoulin-Sudbury District Services Board consider installing a chair lift at the Noëlville Seniors Building to provide for a more accessible facility for individuals with accessibility needs wishing to rent apartments on the second floor.

With the growing population of seniors in our community the Municipality believes this addition to the complex would be advantageous for the future of the Complex and providing accessible spaces for our community members.

If you would like to discuss this further please either call or email me (mgagnon@frenchriver.ca) at your earliest convenience.

Sincerely,

Marc Gagnon
Chief Administrative Officer
