- Notes:
1. Serious occurrence data is available since December 2013; therefore, 2013-14 data includes serious occurrences reported to the ministry from December 2013 to March 2014.
 2. As of August 29, 2016, the serious occurrence categories were redefined as part of the Ontario Regulation 137/15 amendment; therefore, the data may not be directly compared over the years.
 3. As of August 29, 2016, definitions for serious occurrences changed and no longer included "serious injuries" "complaint about service standards" and "other", and "Life-threatening injury or illness" was added.
 4. Serious occurrence records verified as "Not a Serious Occurrence" are excluded from the report. The 2018-19 data is preliminary as some serious occurrences were still under review.
 5. None of the "death of a child" serious occurrences reported in 2017-18 and 2018-19 occurred at a home child care premise or a child care centre. Licensees are required to report a child's death as a serious occurrence where there may be a relationship between the child's death and the child's care in the licensed program, regardless of whether the death of an enrolled child occurred on or off the premises. In all reported cases, the Ministry of Education conducts a follow-up to assess compliance with the *Child Care and Early Years Act, 2014*.

Licensees are required to report a child's death as a serious occurrence where there may be a relationship between the child's death and the child's care in the licensed program, regardless of whether the death of an enrolled child occurred on or off the premises. In all reported cases, the Ministry of Education conducts a follow-up to assess compliance with the *Child Care and Early Years Act, 2014*.

Notes: 1. Serious occurrence data is available since December 2013; therefore, 2013-14 data includes serious occurrences reported to the ministry from December 2013 to March 2014.
 2. As of August 29, 2016, the serious occurrence categories were redefined as part of the Ontario Regulation 137/15 amendment; therefore, the data may not be directly compared over the years.
 3. As of August 29, 2016, definitions for serious occurrences changed and no longer included "serious injuries" "complaint about service standards" and "other", and "Life-threatening injury or illness" was added.
 4. Serious occurrence records verified as "Not a Serious Occurrence" are excluded from the report. The 2018-19 data is preliminary as some serious occurrences were still under review.
 5. None of the "death of a child" serious occurrences reported in 2017-18 and 2018-19 occurred at a home child care premise or a child care centre. Licensees are required to report a child's death as a serious occurrence where there may be a relationship between the child's death and the child's care in the licensed program, regardless of whether the death of an enrolled child occurred on or off the premises. In all reported cases, the Ministry of Education conducts a follow-up to assess compliance with the *Child Care and Early Years Act, 2014*.

1. Serious occurrence data is available since December 2013; therefore, 2013-14 data includes serious occurrences reported to the ministry from December 2013 to March 2014.
 2. As of August 29, 2016, the serious occurrence categories were redefined as part of the Ontario Regulation 137/15 amendment; therefore, the data may not be directly compared over the years.
 3. As of August 29, 2016, definitions for serious occurrences changed and no longer included "serious injuries" "complaint about service standards" and "other", and "Life-threatening injury or illness" was added.
 4. Serious occurrence records verified as "Not a Serious Occurrence" are excluded from the report. The 2018-19 data is preliminary as some serious occurrences were still under review.
 5. None of the "death of a child" serious occurrences reported in 2017-18 and 2018-19 occurred at a home child care premise or a child care centre. Licensees are required to report a child's death as a serious occurrence where there may be a relationship between the child's death and the child's care in the licensed program, regardless of whether the death of an enrolled child occurred on or off the premises. In all reported cases, the Ministry of Education conducts a follow-up to assess compliance with the *Child Care and Early Years Act, 2014*.

 2. As of August 29, 2016, the serious occurrence categories were redefined as part of the Ontario Regulation 137/15 amendment; therefore, the data may not be directly compared over the years.
 3. As of August 29, 2016, definitions for serious occurrences changed and no longer included "serious injuries" "complaint about service standards" and "other", and "Life-threatening injury or illness" was added.
 4. Serious occurrence records verified as "Not a Serious Occurrence" are excluded from the report. The 2018-19 data is preliminary as some serious occurrences were still under review.
 5. None of the "death of a child" serious occurrences reported in 2017-18 and 2018-19 occurred at a home child care premise or a child care centre. Licensees are required to report a child's death as a serious occurrence where there may be a relationship between the child's death and the child's care in the licensed program, regardless of whether the death of an enrolled child occurred on or off the premises. In all reported cases, the Ministry of Education conducts a follow-up to assess compliance with the *Child Care and Early Years Act, 2014*.

Notes: 1. Serious occurrence data is available since December 2013; therefore, 2013-14 data includes serious occurrences reported to the ministry from December 2013 to March 2014.
 2. As of August 29, 2016, the serious occurrence categories were redefined as part of the Ontario Regulation 137/15 amendment; therefore, the data may not be directly compared over the years.
 3. As of August 29, 2016, definitions for serious occurrences changed and no longer included "serious injuries" "complaint about service standards" and "other", and "Life-threatening injury or illness" was added.
 4. Serious occurrence records verified as "Not a Serious Occurrence" are excluded from the report. The 2018-19 data is preliminary as some serious occurrences were still under review.
 5. None of the "death of a child" serious occurrences reported in 2017-18 and 2018-19 occurred at a home child care premise or a child care centre. Licensees are required to report a child's death as a serious occurrence where there may be a relationship between the child's death and the child's care in the licensed program, regardless of whether the death of an enrolled child occurred on or off the premises. In all reported cases, the Ministry of Education conducts a follow-up to assess compliance with the *Child Care and Early Years Act, 2014*.

Notes: 1. Serious occurrence data is available since December 2013; therefore, 2013-14 data includes serious occurrences reported to the ministry from December 2013 to March 2014.
 2. As of August 29, 2016, the serious occurrence categories were redefined as part of the Ontario Regulation 137/15 amendment; therefore, the data may not be directly compared over the years.
 3. As of August 29, 2016, definitions for serious occurrences changed and no longer included "serious injuries" "complaint about service standards" and "other", and "Life-threatening injury or illness" was added.
 4. Serious occurrence records verified as "Not a Serious Occurrence" are excluded from the report. The 2018-19 data is preliminary as some serious occurrences were still under review.
 5. None of the "death of a child" serious occurrences reported in 2017-18 and 2018-19 occurred at a home child care premise or a child care centre. Licensees are required to report a child's death as a serious occurrence where there may be a relationship between the child's death and the child's care in the licensed program, regardless of whether the death of an enrolled child occurred on or off the premises. In all reported cases, the Ministry of Education conducts a follow-up to assess compliance with the *Child Care and Early Years Act, 2014*.

Notes: 1. Serious occurrence data is available since December 2013; therefore, 2013-14 data includes serious occurrences reported to the ministry from December 2013 to March 2014.
 2. As of August 29, 2016, the serious occurrence categories were redefined as part of the Ontario Regulation 137/15 amendment; therefore, the data may not be directly compared over the years.
 3. As of August 29, 2016, definitions for serious occurrences changed and no longer included "serious injuries" "complaint about service standards" and "other", and "Life-threatening injury or illness" was added.
 4. Serious occurrence records verified as "Not a Serious Occurrence" are excluded from the report. The 2018-19 data is preliminary as some serious occurrences were still under review.
 5. None of the "death of a child" serious occurrences reported in 2017-18 and 2018-19 occurred at a home child care premise or a child care centre. Licensees are required to report a child's death as a serious occurrence where there may be a relationship between the child's death and the child's care in the licensed program, regardless of whether the death of an enrolled child occurred on or off the premises. In all reported cases, the Ministry of Education conducts a follow-up to assess compliance with the *Child Care and Early Years Act, 2014*.

Notes: 1. Serious occurrence data is available since December 2013; therefore, 2013-14 data includes serious occurrences reported to the ministry from December 2013 to March 2014.
 2. As of August 29, 2016, the serious occurrence categories were redefined as part of the Ontario Regulation 137/15 amendment; therefore, the data may not be directly compared over the years.
 3. As of August 29, 2016, definitions for serious occurrences changed and no longer included "serious injuries" "complaint about service standards" and "other", and "Life-threatening injury or illness" was added.
 4. Serious occurrence records verified as "Not a Serious Occurrence" are excluded from the report. The 2018-19 data is preliminary as some serious occurrences were still under review.
 5. None of the "death of a child" serious occurrences reported in 2017-18 and 2018-19 occurred at a home child care premise or a child care centre. Licensees are required to report a child's death as a serious occurrence where there may be a relationship between the child's death and the child's care in the licensed program, regardless of whether the death of an enrolled child occurred on or off the premises. In all reported cases, the Ministry of Education conducts a follow-up to assess compliance with the *Child Care and Early Years Act, 2014*.

 2. As of August 29, 2016, the serious occurrence categories were redefined as part of the Ontario Regulation 137/15 amendment; therefore, the data may not be directly compared over the years.
 3. As of August 29, 2016, definitions for serious occurrences changed and no longer included "serious injuries" "complaint about service standards" and "other", and "Life-threatening injury or illness" was added.
 4. Serious occurrence records verified as "Not a Serious Occurrence" are excluded from the report. The 2018-19 data is preliminary as some serious occurrences were still under review.
 5. None of the "death of a child" serious occurrences reported in 2017-18 and 2018-19 occurred at a home child care premise or a child care centre. Licensees are required to report a child's death as a serious occurrence where there may be a relationship between the child's death and the child's care in the licensed program, regardless of whether the death of an enrolled child occurred on or off the premises. In all reported cases, the Ministry of Education conducts a follow-up to assess compliance with the *Child Care and Early Years Act, 2014*.

- Notes:
1. Serious occurrence data is available since December 2013; therefore, 2013-14 data includes serious occurrences reported to the ministry from December 2013 to March 2014.
 2. As of August 29, 2016, the serious occurrence categories were redefined as part of the Ontario Regulation 137/15 amendment; therefore, the data may not be directly compared over the years.
 3. As of August 29, 2016, definitions for serious occurrences changed and no longer included "serious injuries" "complaint about service standards" and "other", and "Life-threatening injury or illness" was added.
 4. Serious occurrence records verified as "Not a Serious Occurrence" are excluded from the report. The 2018-19 data is preliminary as some serious occurrences were still under review.
 5. None of the "death of a child" serious occurrences reported in 2017-18 and 2018-19 occurred at a home child care premise or a child care centre. Licensees are required to report a child's death as a serious occurrence where there may be a relationship between the child's death and the child's care in the licensed program, regardless of whether the death of an enrolled child occurred on or off the premises. In all reported cases, the Ministry of Education conducts a follow-up to assess compliance with the *Child Care and Early Years Act, 2014*.

1. Serious occurrence data is available since December 2013; therefore, 2013-14 data includes serious occurrences reported to the ministry from December 2013 to March 2014.
 2. As of August 29, 2016, the serious occurrence categories were redefined as part of the Ontario Regulation 137/15 amendment; therefore, the data may not be directly compared over the years.
 3. As of August 29, 2016, definitions for serious occurrences changed and no longer included "serious injuries" "complaint about service standards" and "other", and "Life-threatening injury or illness" was added.
 4. Serious occurrence records verified as "Not a Serious Occurrence" are excluded from the report. The 2018-19 data is preliminary as some serious occurrences were still under review.
 5. None of the "death of a child" serious occurrences reported in 2017-18 and 2018-19 occurred at a home child care premise or a child care centre. Licensees are required to report a child's death as a serious occurrence where there may be a relationship between the child's death and the child's care in the licensed program, regardless of whether the death of an enrolled child occurred on or off the premises. In all reported cases, the Ministry of Education conducts a follow-up to assess compliance with the *Child Care and Early Years Act, 2014*.

 3. As of August 29, 2016, definitions for serious occurrences changed and no longer included "serious injuries" "complaint about service standards" and "other", and "Life-threatening injury or illness" was added.
 4. Serious occurrence records verified as "Not a Serious Occurrence" are excluded from the report. The 2018-19 data is preliminary as some serious occurrences were still under review.
 5. None of the "death of a child" serious occurrences reported in 2017-18 and 2018-19 occurred at a home child care premise or a child care centre. Licensees are required to report a child's death as a serious occurrence where there may be a relationship between the child's death and the child's care in the licensed program, regardless of whether the death of an enrolled child occurred on or off the premises. In all reported cases, the Ministry of Education conducts a follow-up to assess compliance with the *Child Care and Early Years Act, 2014*.

 4. Serious occurrence records verified as "Not a Serious Occurrence" are excluded from the report. The 2018-19 data is preliminary as some serious occurrences were still under review.
 5. None of the "death of a child" serious occurrences reported in 2017-18 and 2018-19 occurred at a home child care premise or a child care centre. Licensees are required to report a child's death as a serious occurrence where there may be a relationship between the child's death and the child's care in the licensed program, regardless of whether the death of an enrolled child occurred on or off the premises. In all reported cases, the Ministry of Education conducts a follow-up to assess compliance with the *Child Care and Early Years Act, 2014*.

Notes: 1. Serious occurrence data is available since December 2013; therefore, 2013-14 data includes serious occurrences reported to the ministry from December 2013 to March 2014.
2. As of August 29, 2016, the serious occurrence categories were redefined as part of the Ontario Regulation 137/15 amendment; therefore, the data may not be directly compared over the years.
3. As of August 29, 2016, definitions for serious occurrences changed and no longer included "serious injuries" "complaint about service standards" and "other", and "Life-threatening injury or illness" was added.
4. Serious occurrence records verified as "Not a Serious Occurrence" are excluded from the report. The 2018-19 data is preliminary as some serious occurrences were still under review.
5. None of the "death of a child" serious occurrences reported in 2017-18 and 2018-19 occurred at a home child care premise or a child care centre. Licensees are required to report a child's death as a serious occurrence where there may be a relationship between the child's death and the child's care in the licensed program, regardless of whether the death of an enrolled child occurred on or off the premises. Notes:

1. Serious occurrence data is available since December 2013; therefore, 2013-14 data includes serious occurrences reported to the ministry from December 2013 to March 2014.
2. As of August 29, 2016, the serious occurrence categories were redefined as part of the Ontario Regulation 137/15 amendment; therefore, the data may not be directly compared over the years.
3. As of August 29, 2016, definitions for serious occurrences changed and no longer included "serious injuries" "complaint about service standards" and "other", and "Life-threatening injury or illness" was added.
4. Serious occurrence records verified as "Not a Serious Occurrence" are excluded from the report. The 2018-19 data is preliminary as some serious occurrences were still under review.
5. None of the "death of a child" serious occurrences reported in 2017-18 and 2018-19 occurred at a home child care premise or a child care centre. Licensees are required to report a child's death as a serious occurrence where there may be a relationship between the child's death and the child's care in the licensed program, regardless of whether the death of an enrolled child occurred on or off the premises. In all reported cases, the Ministry of Education conducts a follow-up to assess compliance with the *Child Care and Early Years Act, 2014*.

- Notes:
1. Serious occurrence data is available since December 2013; therefore, 2013-14 data includes serious occurrences reported to the ministry from December 2013 to March 2014.
 2. As of August 29, 2016, the serious occurrence categories were redefined as part of the Ontario Regulation 137/15 amendment; therefore, the data may not be directly compared over the years.
 3. As of August 29, 2016, definitions for serious occurrences changed and no longer included "serious injuries" "complaint about service standards" and "other", and "Life-threatening injury or illness" was added.
 4. Serious occurrence records verified as "Not a Serious Occurrence" are excluded from the report. The 2018-19 data is preliminary as some serious occurrences were still under review.
 5. None of the "death of a child" serious occurrences reported in 2017-18 and 2018-19 occurred at a home child care premise or a child care centre. Licensees are required to report a child's death as a serious occurrence where there may be a relationship between the child's death and the child's care in the licensed program, regardless of whether the death of an enrolled child occurred on or off the premises. In all reported cases, the Ministry of Education conducts a follow-up to assess compliance with the *Child Care and Early Years Act, 2014*.

- Notes:
1. Serious occurrence data is available since December 2013; therefore, 2013-14 data includes serious occurrences reported to the ministry from December 2013 to March 2014.
 2. As of August 29, 2016, the serious occurrence categories were redefined as part of the Ontario Regulation 137/15 amendment; therefore, the data may not be directly compared over the years.
 3. As of August 29, 2016, definitions for serious occurrences changed and no longer included "serious injuries" "complaint about service standards" and "other", and "Life-threatening injury or illness" was added.
 4. Serious occurrence records verified as "Not a Serious Occurrence" are excluded from the report. The 2018-19 data is preliminary as some serious occurrences were still under review.
 5. None of the "death of a child" serious occurrences reported in 2017-18 and 2018-19 occurred at a home child care premise or a child care centre. Licensees are required to report a child's death as a serious occurrence where there may be a relationship between the child's death and the child's care in the licensed program, regardless of whether the death of an enrolled child occurred on or off the premises. In all reported cases, the Ministry of Education conducts a follow-up to assess compliance with the *Child Care and Early Years Act, 2014*.

- Notes:
1. Serious occurrence data is available since December 2013; therefore, 2013-14 data includes serious occurrences reported to the ministry from December 2013 to March 2014.
 2. As of August 29, 2016, the serious occurrence categories were redefined as part of the Ontario Regulation 137/15 amendment; therefore, the data may not be directly compared over the years.
 3. As of August 29, 2016, definitions for serious occurrences changed and no longer included "serious injuries" "complaint about service standards" and "other", and "Life-threatening injury or illness" was added.
 4. Serious occurrence records verified as "Not a Serious Occurrence" are excluded from the report. The 2018-19 data is preliminary as some serious occurrences were still under review.
 5. None of the "death of a child" serious occurrences reported in 2017-18 and 2018-19 occurred at a home child care premise or a child care centre. Licensees are required to report a child's death as a serious occurrence where there may be a relationship between the child's death and the child's care in the licensed program, regardless of whether the death of an enrolled child occurred on or off the premises. In all reported cases, the Ministry of Education conducts a follow-up to assess compliance with the *Child Care and Early Years Act, 2014*.

Notes: 1. Serious occurrence data is available since December 2013; therefore, 2013-14 data includes serious occurrences reported to the ministry from December 2013 to March 2014.
2. As of August 29, 2016, the serious occurrence categories were redefined as part of the Ontario Regulation 137/15 amendment; therefore, the data may not be directly compared over the years.
3. As of August 29, 2016, definitions for serious occurrences changed and no longer included "serious injuries" "complaint about service standards" and "other", and "Life-threatening injury or illness" was added.
4. Serious occurrence records verified as "Not a Serious Occurrence" are excluded from the report. The 2018-19 data is preliminary as some serious occurrences were still under review.
5. None of the "death of a child" serious occurrences reported in 2017-18 and 2018-19 occurred at a home child care premise or a child care centre. Licensees are required to report a child's death as a serious occurrence where there may be a relationship between the child's death and the child's care in the licensed program, regardless of whether the death of an enrolled child occurred on or off the premises. In all reported cases, the Ministry of Education conducts a follow-up to assess compliance with the *Child Care and Early Years Act, 2014*.

Notes: 1. Serious occurrence data is available since December 2013; therefore, 2013-14 data includes serious occurrences reported to the ministry from December 2013 to March 2014.
 2. As of August 29, 2016, the serious occurrence categories were redefined as part of the Ontario Regulation 137/15 amendment; therefore, the data may not be directly compared over the years.
 3. As of August 29, 2016, definitions for serious occurrences changed and no longer included "serious injuries" "complaint about service standards" and "other", and "Life-threatening injury or illness" was added.
 4. Serious occurrence records verified as "Not a Serious Occurrence" are excluded from the report. The 2018-19 data is preliminary as some serious occurrences were still under review.
 5. None of the "death of a child" serious occurrences reported in 2017-18 and 2018-19 occurred at a home child care premise or a child care centre. Licensees are required to report a child's death as a serious occurrence where there may be a relationship between the child's death and the child's care in the licensed program, regardless of whether the death of an enrolled child occurred on or off the premises. In all reported cases, the Ministry of Education conducts a follow-up to assess compliance with the *Child Care and Early Years Act, 2014*.

Notes: 1. Serious occurrence data is available since December 2013; therefore, 2013-14 data includes serious occurrences reported to the ministry from December 2013 to March 2014.
2. As of August 29, 2016, the serious occurrence categories were redefined as part of the Ontario Regulation 137/15 amendment; therefore, the data may not be directly compared over the years.
3. As of August 29, 2016, definitions for serious occurrences changed and no longer included "serious injuries" "complaint about service standards" and "other", and "Life-threatening injury or illness" was added.
4. Serious occurrence records verified as "Not a Serious Occurrence" are excluded from the report. The 2018-19 data is preliminary as some serious occurrences were still under review.
5. None of the "death of a child" serious occurrences reported in 2017-18 and 2018-19 occurred at a home child care premise or a child care centre. Licensees are required to report a child's death as a serious occurrence where there may be a relationship between the child's death and the child's care in the licensed program, regardless of whether the death of an enrolled child occurred on or off the premises. In all reported cases, the Ministry of Education conducts a follow-up to assess compliance with the *Child Care and Early Years Act, 2014*.

Notes: 1. Serious occurrence data is available since December 2013; therefore, 2013-14 data includes serious occurrences reported to the ministry from December 2013 to March 2014.
2. As of August 29, 2016, the serious occurrence categories were redefined as part of the Ontario Regulation 137/15 amendment; therefore, the data may not be directly compared over the years.
3. As of August 29, 2016, definitions for serious occurrences changed and no longer included "serious injuries" "complaint about service standards" and "other", and "Life-threatening injury or illness" was added.
4. Serious occurrence records verified as "Not a Serious Occurrence" are excluded from the report. The 2018-19 data is preliminary as some serious occurrences were still under review.
5. None of the "death of a child" serious occurrences reported in 2017-18 and 2018-19 occurred at a home child care premise or a child care centre. Licensees are required to report a child's death as a serious occurrence where there may be a relationship between the child's death and the child's care in the licensed program, regardless of whether the death of an enrolled child occurred on or off the premises. In all reported cases, the Ministry of Education conducts a follow-up to assess compliance with the *Child Care and Early Years Act, 2014*.

Notes: 1. Serious occurrence data is available since December 2013; therefore, 2013-14 data includes serious occurrences reported to the ministry from December 2013 to March 2014.
2. As of August 29, 2016, the serious occurrence categories were redefined as part of the Ontario Regulation 137/15 amendment; therefore, the data may not be directly compared over the years.
3. As of August 29, 2016, definitions for serious occurrences changed and no longer included "serious injuries" "complaint about service standards" and "other", and "Life-threatening injury or illness" was added.
4. Serious occurrence records verified as "Not a Serious Occurrence" are excluded from the report. The 2018-19 data is preliminary as some serious occurrences were still under review.
5. None of the "death of a child" serious occurrences reported in 2017-18 and 2018-19 occurred at a home child care premise or a child care centre. Licensees are required to report a child's death as a serious occurrence where there may be a relationship between the child's death and the child's care in the licensed program, regardless of whether the death of an enrolled child occurred on or off the premises. In all reported cases, the Ministry of Education conducts a follow-up to assess compliance with the *Child Care and Early Years Act, 2014*.

Notes: 1. Serious occurrence data is available since December 2013; therefore, 2013-14 data includes serious occurrences reported to the ministry from December 2013 to March 2014.
 2. As of August 29, 2016, the serious occurrence categories were redefined as part of the Ontario Regulation 137/15 amendment; therefore, the data may not be directly compared over the years.
 3. As of August 29, 2016, definitions for serious occurrences changed and no longer included "serious injuries" "complaint about service standards" and "other", and "Life-threatening injury or illness" was added.
 4. Serious occurrence records verified as "Not a Serious Occurrence" are excluded from the report. The 2018-19 data is preliminary as some serious occurrences were still under review.
 5. None of the "death of a child" serious occurrences reported in 2017-18 and 2018-19 occurred at a home child care premise or a child care centre. Licensees are required to report a child's death as a serious occurrence where there may be a relationship between the child's death and the child's care in the licensed program, regardless of whether the death of an enrolled child occurred on or off the premises. In all reported cases, the Ministry of Education conducts a follow-up to assess compliance with the *Child Care and Early Years Act, 2014*.

Notes: 1. Serious occurrence data is available since December 2013; therefore, 2013-14 data includes serious occurrences reported to the ministry from December 2013 to March 2014.
 2. As of August 29, 2016, the serious occurrence categories were redefined as part of the Ontario Regulation 137/15 amendment; therefore, the data may not be directly compared over the years.
 3. As of August 29, 2016, definitions for serious occurrences changed and no longer included "serious injuries" "complaint about service standards" and "other", and "Life-threatening injury or illness" was added.
 4. Serious occurrence records verified as "Not a Serious Occurrence" are excluded from the report. The 2018-19 data is preliminary as some serious occurrences were still under review.
 5. None of the "death of a child" serious occurrences reported in 2017-18 and 2018-19 occurred at a home child care premise or a child care centre. Licensees are required to report a child's death as a serious occurrence where there may be a relationship between the child's death and the child's care in the licensed program, regardless of whether the death of an enrolled child occurred on or off the premises. In all reported cases, the Ministry of Education conducts a follow-up to assess compliance with the *Child Care and Early Years Act, 2014*.

Notes:

1. Serious occurrence data is available since December 2013; therefore, 2013-14 data includes serious occurrences reported to the ministry from December 2013 to March 2014.
2. As of August 29, 2016, the serious occurrence categories were redefined as part of the Ontario Regulation 137/15 amendment; therefore, the data may not be directly compared over the years.
3. As of August 29, 2016, definitions for serious occurrences changed and no longer included "serious injuries" "complaint about service standards" and "other", and "Life-threatening injury or illness" was added.
4. Serious occurrence records verified as "Not a Serious Occurrence" are excluded from the report. The 2018-19 data is preliminary as some serious occurrences were still under review.
5. None of the "death of a child" serious occurrences reported in 2017-18 and 2018-19 occurred at a home child care premise or a child care centre. Licensees are required to report a child's death as a serious occurrence where there may be a relationship between the child's death and the child's care in the licensed program, regardless of whether the death of an enrolled child occurred on or off the premises. In all reported cases, the Ministry of Education conducts a follow-up to assess compliance with the *Child Care and Early Years Act, 2014*.

Notes: 1. Serious occurrence data is available since December 2013; therefore, 2013-14 data includes serious occurrences reported to the ministry from December 2013 to March 2014.
 2. As of August 29, 2016, the serious occurrence categories were redefined as part of the Ontario Regulation 137/15 amendment; therefore, the data may not be directly compared over the years.
 3. As of August 29, 2016, definitions for serious occurrences changed and no longer included "serious injuries" "complaint about service standards" and "other", and "Life-threatening injury or illness" was added.
 4. Serious occurrence records verified as "Not a Serious Occurrence" are excluded from the report. The 2018-19 data is preliminary as some serious occurrences were still under review.
 5. None of the "death of a child" serious occurrences reported in 2017-18 and 2018-19 occurred at a home child care premise or a child care centre. Licensees are required to report a child's death as a serious occurrence where there may be a relationship between the child's death and the child's care in the licensed program, regardless of whether the death of an enrolled child occurred on or off the premises. In all reported cases, the Ministry of Education conducts a follow-up to assess compliance with the *Child Care and Early Years Act, 2014*.

Notes: 1. Serious occurrence data is available since December 2013; therefore, 2013-14 data includes serious occurrences reported to the ministry from December 2013 to March 2014.
 2. As of August 29, 2016, the serious occurrence categories were redefined as part of the Ontario Regulation 137/15 amendment; therefore, the data may not be directly compared over the years.
 3. As of August 29, 2016, definitions for serious occurrences changed and no longer included "serious injuries" "complaint about service standards" and "other", and "Life-threatening injury or illness" was added.
 4. Serious occurrence records verified as "Not a Serious Occurrence" are excluded from the report. The 2018-19 data is preliminary as some serious occurrences were still under review.
 5. None of the "death of a child" serious occurrences reported in 2017-18 and 2018-19 occurred at a home child care premise or a child care centre. Licensees are required to report a child's death as a serious occurrence where there may be a relationship between the child's death and the child's care in the licensed program, regardless of whether the death of an enrolled child occurred on or off the premises. In all reported cases, the Ministry of Education conducts a follow-up to assess compliance with the *Child Care and Early Years Act, 2014*.

Notes: 1. Serious occurrence data is available since December 2013; therefore, 2013-14 data includes serious occurrences reported to the ministry from December 2013 to March 2014.
2. As of August 29, 2016, the serious occurrence categories were redefined as part of the Ontario Regulation 137/15 amendment; therefore, the data may not be directly compared over the years.
3. As of August 29, 2016, definitions for serious occurrences changed and no longer included "serious injuries" "complaint about service standards" and "other", and "Life-threatening injury or illness" was added.
4. Serious occurrence records verified as "Not a Serious Occurrence" are excluded from the report. The 2018-19 data is preliminary as some serious occurrences were still under review.
5. None of the "death of a child" serious occurrences reported in 2017-18 and 2018-19 occurred at a home child care premise or a child care centre. Licensees are required to report a child's death as a serious occurrence where there may be a relationship between the child's death and the child's care in the licensed program, regardless of whether the death of an enrolled child occurred on or off the premises. In all reported cases, the Ministry of Education conducts a follow-up to assess compliance with the *Child Care and Early Years Act, 2014*.

Notes: 1. Serious occurrence data is available since December 2013; therefore, 2013-14 data includes serious occurrences reported to the ministry from December 2013 to March 2014.
 2. As of August 29, 2016, the serious occurrence categories were redefined as part of the Ontario Regulation 137/15 amendment; therefore, the data may not be directly compared over the years.
 3. As of August 29, 2016, definitions for serious occurrences changed and no longer included "serious injuries" "complaint about service standards" and "other", and "Life-threatening injury or illness" was added.
 4. Serious occurrence records verified as "Not a Serious Occurrence" are excluded from the report. The 2018-19 data is preliminary as some serious occurrences were still under review.
 5. None of the "death of a child" serious occurrences reported in 2017-18 and 2018-19 occurred at a home child care premise or a child care centre. Licensees are required to report a child's death as a serious occurrence where there may be a relationship between the child's death and the child's care in the licensed program, regardless of whether the death of an enrolled child occurred on or off the premises. In all reported cases, the Ministry of Education conducts a follow-up to assess compliance with the *Child Care and Early Years Act, 2014*.

Notes: 1. Serious occurrence data is available since December 2013; therefore, 2013-14 data includes serious occurrences reported to the ministry from December 2013 to March 2014.
 2. As of August 29, 2016, the serious occurrence categories were redefined as part of the Ontario Regulation 137/15 amendment; therefore, the data may not be directly compared over the years.
 3. As of August 29, 2016, definitions for serious occurrences changed and no longer included "serious injuries" "complaint about service standards" and "other", and "Life-threatening injury or illness" was added.
 4. Serious occurrence records verified as "Not a Serious Occurrence" are excluded from the report. The 2018-19 data is preliminary as some serious occurrences were still under review.
 5. None of the "death of a child" serious occurrences reported in 2017-18 and 2018-19 occurred at a home child care premise or a child care centre. Licensees are required to report a child's death as a serious occurrence where there may be a relationship between the child's death and the child's care in the licensed program, regardless of whether the death of an enrolled child occurred on or off the premises. In all reported cases, the Ministry of Education conducts a follow-up to assess compliance with the *Child Care and Early Years Act, 2014*.

Notes: 1. Serious occurrence data is available since December 2013; therefore, 2013-14 data includes serious occurrences reported to the ministry from December 2013 to March 2014.
2. As of August 29, 2016, the serious occurrence categories were redefined as part of the Ontario Regulation 137/15 amendment; therefore, the data may not be directly compared over the years.
3. As of August 29, 2016, definitions for serious occurrences changed and no longer included "serious injuries" "complaint about service standards" and "other", and "Life-threatening injury or illness" was added.
4. Serious occurrence records verified as "Not a Serious Occurrence" are excluded from the report. The 2018-19 data is preliminary as some serious occurrences were still under review.
5. None of the "death of a child" serious occurrences reported in 2017-18 and 2018-19 occurred at a home child care premise or a child care centre. Licensees are required to report a child's death as a serious occurrence where there may be a relationship between the child's death and the child's care in the licensed program, regardless of whether the death of an enrolled child occurred on or off the premises. In all reported cases, the Ministry of Education conducts a follow-up to assess compliance with the *Child Care and Early Years Act, 2014*.

Notes: 1. Serious occurrence data is available since December 2013; therefore, 2013-14 data includes serious occurrences reported to the ministry from December 2013 to March 2014.
 2. As of August 29, 2016, the serious occurrence categories were redefined as part of the Ontario Regulation 137/15 amendment; therefore, the data may not be directly compared over the years.
 3. As of August 29, 2016, definitions for serious occurrences changed and no longer included "serious injuries" "complaint about service standards" and "other", and "Life-threatening injury or illness" was added.
 4. Serious occurrence records verified as "Not a Serious Occurrence" are excluded from the report. The 2018-19 data is preliminary as some serious occurrences were still under review.
 5. None of the "death of a child" serious occurrences reported in 2017-18 and 2018-19 occurred at a home child care premise or a child care centre. Licensees are required to report a child's death as a serious occurrence where there may be a relationship between the child's death and the child's care in the licensed program, regardless of whether the death of an enrolled child occurred on or off the premises. In all reported cases, the Ministry of Education conducts a follow-up to assess compliance with the *Child Care and Early Years Act, 2014*.

Notes: 1. Serious occurrence data is available since December 2013; therefore, 2013-14 data includes serious occurrences reported to the ministry from December 2013 to March 2014.
2. As of August 29, 2016, the serious occurrence categories were redefined as part of the Ontario Regulation 137/15 amendment; therefore, the data may not be directly compared over the years.
3. As of August 29, 2016, definitions for serious occurrences changed and no longer included "serious injuries" "complaint about service standards" and "other", and "Life-threatening injury or illness" was added.
4. Serious occurrence records verified as "Not a Serious Occurrence" are excluded from the report. The 2018-19 data is preliminary as some serious occurrences were still under review.
5. None of the "death of a child" serious occurrences reported in 2017-18 and 2018-19 occurred at a home child care premise or a child care centre. Licensees are required to report a child's death as a serious occurrence where there may be a relationship between the child's death and the child's care in the licensed program, regardless of whether the death of an enrolled child occurred on or off the premises. In all reported cases, the Ministry of Education conducts a follow-up to assess compliance with the *Child Care and Early Years Act, 2014*.

Notes: 1. Serious occurrence data is available since December 2013; therefore, 2013-14 data includes serious occurrences reported to the ministry from December 2013 to March 2014.
 2. As of August 29, 2016, the serious occurrence categories were redefined as part of the Ontario Regulation 137/15 amendment; therefore, the data may not be directly compared over the years.
 3. As of August 29, 2016, definitions for serious occurrences changed and no longer included "serious injuries" "complaint about service standards" and "other", and "Life-threatening injury or illness" was added.
 4. Serious occurrence records verified as "Not a Serious Occurrence" are excluded from the report. The 2018-19 data is preliminary as some serious occurrences were still under review.
 5. None of the "death of a child" serious occurrences reported in 2017-18 and 2018-19 occurred at a home child care premise or a child care centre. Licensees are required to report a child's death as a serious occurrence where there may be a relationship between the child's death and the child's care in the licensed program, regardless of whether the death of an enrolled child occurred on or off the premises. In all reported cases, the Ministry of Education conducts a follow-up to assess compliance with the *Child Care and Early Years Act, 2014*.

Notes: 1. Serious occurrence data is available since December 2013; therefore, 2013-14 data includes serious occurrences reported to the ministry from December 2013 to March 2014.
 2. As of August 29, 2016, the serious occurrence categories were redefined as part of the Ontario Regulation 137/15 amendment; therefore, the data may not be directly compared over the years.
 3. As of August 29, 2016, definitions for serious occurrences changed and no longer included "serious injuries" "complaint about service standards" and "other", and "Life-threatening injury or illness" was added.
 4. Serious occurrence records verified as "Not a Serious Occurrence" are excluded from the report. The 2018-19 data is preliminary as some serious occurrences were still under review.
 5. None of the "death of a child" serious occurrences reported in 2017-18 and 2018-19 occurred at a home child care premise or a child care centre. Licensees are required to report a child's death as a serious occurrence where there may be a relationship between the child's death and the child's care in the licensed program, regardless of whether the death of an enrolled child occurred on or off the premises. In all reported cases, the Ministry of Education conducts a follow-up to assess compliance with the *Child Care and Early Years Act, 2014*.

Notes: 1. Serious occurrence data is available since December 2013; therefore, 2013-14 data includes serious occurrences reported to the ministry from December 2013 to March 2014.
2. As of August 29, 2016, the serious occurrence categories were redefined as part of the Ontario Regulation 137/15 amendment; therefore, the data may not be directly compared over the years.
3. As of August 29, 2016, definitions for serious occurrences changed and no longer included "serious injuries" "complaint about service standards" and "other", and "Life-threatening injury or illness" was added.
4. Serious occurrence records verified as "Not a Serious Occurrence" are excluded from the report. The 2018-19 data is preliminary as some serious occurrences were still under review.
5. None of the "death of a child" serious occurrences reported in 2017-18 and 2018-19 occurred at a home child care premise or a child care centre. Licensees are required to report a child's death as a serious occurrence where there may be a relationship between the child's death and the child's care in the licensed program, regardless of whether the death of an enrolled child occurred on or off the premises. In all reported cases, the Ministry of Education conducts a follow-up to assess compliance with the *Child Care and Early Years Act, 2014*.

2. As of August 29, 2016, the serious occurrence categories were redefined as part of the Ontario Regulation 137/15 amendment; therefore, the data may not be directly compared over the years.
3. As of August 29, 2016, definitions for serious occurrences changed and no longer included "serious injuries" "complaint about service standards" and "other", and "Life-threatening injury or illness" was added.
4. Serious occurrence records verified as "Not a Serious Occurrence" are excluded from the report. The 2018-19 data is preliminary as some serious occurrences were still under review.
5. None of the "death of a child" serious occurrences reported in 2017-18 and 2018-19 occurred at a home child care premise or a child care centre. Licensees are required to report a child's death as a serious occurrence where there may be a relationship between the child's death and the child's care in the licensed program, regardless of whether the death of an enrolled child occurred on or off the premises. In all reported cases, the Ministry of Education conducts a follow-up to assess compliance with the *Child Care and Early Years Act, 2014*.

Notes: 1. Serious occurrence data is available since December 2013; therefore, 2013-14 data includes serious occurrences reported to the ministry from December 2013 to March 2014.
 2. As of August 29, 2016, the serious occurrence categories were redefined as part of the Ontario Regulation 137/15 amendment; therefore, the data may not be directly compared over the years.
 3. As of August 29, 2016, definitions for serious occurrences changed and no longer included "serious injuries" "complaint about service standards" and "other", and "Life-threatening injury or illness" was added.
 4. Serious occurrence records verified as "Not a Serious Occurrence" are excluded from the report. The 2018-19 data is preliminary as some serious occurrences were still under review.
 5. None of the "death of a child" serious occurrences reported in 2017-18 and 2018-19 occurred at a home child care premise or a child care centre. Licensees are required to report a child's death as a serious occurrence where there may be a relationship between the child's death and the child's care in the licensed program, regardless of whether the death of an enrolled child occurred on or off the premises. In all reported cases, the Ministry of Education conducts a follow-up to assess compliance with the *Child Care and Early Years Act, 2014*.

Notes: 1. Serious occurrence data is available since December 2013; therefore, 2013-14 data includes serious occurrences reported to the ministry from December 2013 to March 2014.
 2. As of August 29, 2016, the serious occurrence categories were redefined as part of the Ontario Regulation 137/15 amendment; therefore, the data may not be directly compared over the years.
 3. As of August 29, 2016, definitions for serious occurrences changed and no longer included "serious injuries" "complaint about service standards" and "other", and "Life-threatening injury or illness" was added.
 4. Serious occurrence records verified as "Not a Serious Occurrence" are excluded from the report. The 2018-19 data is preliminary as some serious occurrences were still under review.
 5. None of the "death of a child" serious occurrences reported in 2017-18 and 2018-19 occurred at a home child care premise or a child care centre. Licensees are required to report a child's death as a serious occurrence where there may be a relationship between the child's death and the child's care in the licensed program, regardless of whether the death of an enrolled child occurred on or off the premises. In all reported cases, the Ministry of Education conducts a follow-up to assess compliance with the *Child Care and Early Years Act, 2014*.

Notes: 1. Serious occurrence data is available since December 2013; therefore, 2013-14 data includes serious occurrences reported to the ministry from December 2013 to March 2014.
 2. As of August 29, 2016, the serious occurrence categories were redefined as part of the Ontario Regulation 137/15 amendment; therefore, the data may not be directly compared over the years.
 3. As of August 29, 2016, definitions for serious occurrences changed and no longer included "serious injuries" "complaint about service standards" and "other", and "Life-threatening injury or illness" was added.
 4. Serious occurrence records verified as "Not a Serious Occurrence" are excluded from the report. The 2018-19 data is preliminary as some serious occurrences were still under review.
 5. None of the "death of a child" serious occurrences reported in 2017-18 and 2018-19 occurred at a home child care premise or a child care centre. Licensees are required to report a child's death as a serious occurrence where there may be a relationship between the child's death and the child's care in the licensed program, regardless of whether the death of an enrolled child occurred on or off the premises. In all reported cases, the Ministry of Education conducts a follow-up to assess compliance with the *Child Care and Early Years Act, 2014*.

Notes: 1. Serious occurrence data is available since December 2013; therefore, 2013-14 data includes serious occurrences reported to the ministry from December 2013 to March 2014.
 2. As of August 29, 2016, the serious occurrence categories were redefined as part of the Ontario Regulation 137/15 amendment; therefore, the data may not be directly compared over the years.
 3. As of August 29, 2016, definitions for serious occurrences changed and no longer included "serious injuries" "complaint about service standards" and "other", and "Life-threatening injury or illness" was added.
 4. Serious occurrence records verified as "Not a Serious Occurrence" are excluded from the report. The 2018-19 data is preliminary as some serious occurrences were still under review.
 5. None of the "death of a child" serious occurrences reported in 2017-18 and 2018-19 occurred at a home child care premise or a child care centre. Licensees are required to report a child's death as a serious occurrence where there may be a relationship between the child's death and the child's care in the licensed program, regardless of whether the death of an enrolled child occurred on or off the premises. In all reported cases, the Ministry of Education conducts a follow-up to assess compliance with the *Child Care and Early Years Act, 2014*.

Notes: 1. Serious occurrence data is available since December 2013; therefore, 2013-14 data includes serious occurrences reported to the ministry from December 2013 to March 2014.
2. As of August 29, 2016, the serious occurrence categories were redefined as part of the Ontario Regulation 137/15 amendment; therefore, the data may not be directly compared over the years.
3. As of August 29, 2016, definitions for serious occurrences changed and no longer included "serious injuries" "complaint about service standards" and "other", and "Life-threatening injury or illness" was added.
4. Serious occurrence records verified as "Not a Serious Occurrence" are excluded from the report. The 2018-19 data is preliminary as some serious occurrences were still under review.
5. None of the "death of a child" serious occurrences reported in 2017-18 and 2018-19 occurred at a home child care premise or a child care centre. Licensees are required to report a child's death as a serious occurrence where there may be a relationship between the child's death and the child's care in the licensed program, regardless of whether the death of an enrolled child occurred on or off the premises. In all reported cases, the Ministry of Education conducts a follow-up to assess compliance with the *Child Care and Early Years Act, 2014*.

Notes: 1. The total spaces may not be equal to the sum of the spaces by age groups each fiscal year due to the exclusion of alternating spaces in total spaces from 2010-11 to 2012-13.
2. As of September 1, 2017, the "Family Age" group was introduced for licensed child care centres. This new licensed age group did not exist prior to 2017-18.

Note: The number of centres in a given year may not be equal to the sum of the number of centres in the previous year and the number of net change as centres may report to different municipalities over time.

Notes: 1. Serious occurrence data is available since December 2013; therefore, 2013-14 data includes serious occurrences reported to the ministry from December 2013 to March 2014.
2. As of August 29, 2016, the serious occurrence categories were redefined as part of the Ontario Regulation 137/15 amendment; therefore, the data may not be directly compared over the years.
3. As of August 29, 2016, definitions for serious occurrences changed and no longer included "serious injuries" "complaint about service standards" and "other", and "Life-threatening injury or illness" was added.
4. Serious occurrence records verified as "Not a Serious Occurrence" are excluded from the report. The 2018-19 data is preliminary as some serious occurrences were still under review.
5. None of the "death of a child" serious occurrences reported in 2017-18 and 2018-19 occurred at a home child care premise or a child care centre. Licensees are required to report a child's death as a serious occurrence where there may be a relationship between the child's death and the child's care in the licensed program, regardless of whether the death of an enrolled child occurred on or off the premises. In all reported cases, the Ministry of Education conducts a follow-up to assess compliance with the *Child Care and Early Years Act, 2014*.

Notes: 1. The total spaces may not be equal to the sum of the spaces by age groups each fiscal year due to the exclusion of alternating spaces in total spaces from 2010-11 to 2012-13.
2. As of September 1, 2017, the "Family Age" group was introduced for licensed child care centres. This new licensed age group did not exist prior to 2017-18.

Note: The number of centres in a given year may not be equal to the sum of the number of centres in the previous year and the number of net change as centres may report to different municipalities over time.

Notes: 1. Serious occurrence data is available since December 2013; therefore, 2013-14 data includes serious occurrences reported to the ministry from December 2013 to March 2014.
2. As of August 29, 2016, the serious occurrence categories were redefined as part of the Ontario Regulation 137/15 amendment; therefore, the data may not be directly compared over the years.
3. As of August 29, 2016, definitions for serious occurrences changed and no longer included "serious injuries" "complaint about service standards" and "other", and "Life-threatening injury or illness" was added.
4. Serious occurrence records verified as "Not a Serious Occurrence" are excluded from the report. The 2018-19 data is preliminary as some serious occurrences were still under review.
5. None of the "death of a child" serious occurrences reported in 2017-18 and 2018-19 occurred at a home child care premise or a child care centre. Licensees are required to report a child's death as a serious occurrence where there may be a relationship between the child's death and the child's care in the licensed program, regardless of whether the death of an enrolled child occurred on or off the premises. In all reported cases, the Ministry of Education conducts a follow-up to assess compliance with the *Child Care and Early Years Act, 2014*.

Notes: 1. Serious occurrence data is available since December 2013; therefore, 2013-14 data includes serious occurrences reported to the ministry from December 2013 to March 2014.
2. As of August 29, 2016, the serious occurrence categories were redefined as part of the Ontario Regulation 137/15 amendment; therefore, the data may not be directly compared over the years.
3. As of August 29, 2016, definitions for serious occurrences changed and no longer included "serious injuries" "complaint about service standards" and "other", and "Life-threatening injury or illness" was added.
4. Serious occurrence records verified as "Not a Serious Occurrence" are excluded from the report. The 2018-19 data is preliminary as some serious occurrences were still under review.
5. None of the "death of a child" serious occurrences reported in 2017-18 and 2018-19 occurred at a home child care premise or a child care centre. Licensees are required to report a child's death as a serious occurrence where there may be a relationship between the child's death and the child's care in the licensed program, regardless of whether the death of an enrolled child occurred on or off the premises. In all reported cases, the Ministry of Education conducts a follow-up to assess compliance with the *Child Care and Early Years Act, 2014*.
