WHEREAS the Manitoulin-Sudbury District Services Board approved a resolution on February 28, 2013 supporting a management report recommending changes to standby locations of ambulances in Sudbury Eas; and

WHEREAS such report cites the Government of Ontario Ministry of Health LTC legislated response time to a CTAS 1 call be made in 8 minutes and 6 minutes to a SCA; and

WHEREAS it has been proven statistically that the redeployment of the Hagar ambulance to the Noelville base and for the Noelville Ambulance to remain in Noelville during a respective calls that this change in procedures increases the chance to respond to a CTAS 1 less than 8 minutes and 6 minutes to a SCA call in the Town of Noelville area only; and

WHEREAS the change in management policy will adversely affect the residents surrounding the Hagar station by increasing the response time to calls received during any such redeployment; and

WHEREAS the Manitoulin-Sudbury District Services Board is unable to quantify the response time as a result of the change in Standby Location from West Nipissing and Sudbury; and

BE IT THEREFORE RESOLVED THAT we request the Manitoulin-Sudbury District Services Board reverse its decision until the full impact to the affected population is researched including estimated time away from base, fastest response time all areas when on standby and that such information be circulated to affected residents; and

BE IT FURTHER RESOLVED THAT the Council for the Corporation of the Municipality of St.-Charles believes that fair and equitable response to all residents of Sudbury East should be targeted and that the achievement of a possible 8 or 6 minutes response time to a one town is not worth the sacrifice of the entire population in the region.
